

AIR-INFLATABLE PLUGS: FOR SPILL CONTAINMENT AND CIVIL/MUNICIPAL CONSTRUCTION

STANDARD SIZE CHART

PART NO.	DIAMETER	LENGTH	MAX PRESSURE
AB-1622	16"	24"	4.0 psi
AB-1830	18"	30"	4.0 psi
AB-2030	20"	30"	4.0 psi
AB-2430	24"	30"	4.0 psi
AB-3036	30"	36"	4.0 psi
AB-4860	48"	60"	4.0 psi

- △ The air-inflated Air Bungs are made to friction fit to the inside of a culvert or pipe to prevent the passage of liquids during construction or during emergency spill response.
- △ Each Air Bung comes standard with a 3/4" fill/drain fitting, pressure relief valve, valve stem and tie-off loop fixed to both ends.
- △ Air Bungs are made with high strength industrial coated TPU fabric, they are compact for easy handling or storage, easily inflated with a hand or foot operated pump, reusable and repairable.
